

Euraplan's Accounting Package short-listed as finalist for the Accountancy Age Awards 2004

Euraplan's OpenAIR Lite accounting package has been short-listed as a finalist for the 'Small Business Software Package of the Year' Accountancy Age Awards. Euraplan are amongst the privileged few to be selected as a finalist for the prestige award category.

OpenAIR Lite is a low-cost pensions accounting package, designed for the needs of small businesses running pension schemes.

This year marks the 10th anniversary of the Accountancy Age Awards to celebrate achievement across the entire accountancy profession. An independent panel of highly respected financial and business leaders judge the finalists and the award winners.

The awards will be presented at the Accountancy Age Awards for Excellence on Wednesday 10 November 2004 at Battersea Park Arena, Battersea, London.

Graham Mounce, Pension Scheme Trustee of Eldridge, Pope & Co. plc says:

'It is refreshing to finally see a software supplier addressing the pensions accounting needs of smaller schemes, as there are thousands of small schemes similar to us in the pensions industry that need a tool like OpenAIR Lite.'

OpenAIR Lite has proven to cut through the pension accounting complexities that most small schemes encounter. It is often difficult for suppliers to achieve results that small clients require and at the right price. However, this is exactly what Euraplan has achieved by creating OpenAIR Lite.'
